

Group 19 Contract

Four ground rules:

1. Properly splitting up responsibilities.
2. Open communication in a reasonable amount of time.
3. Don't procrastinate on fundamental parts.
4. Using Discord for communication.

Three things that we DON'T want to happen:

- Lack of communication.
- Exclusion from group members, especially in larger settings.
- Lack of effort from one or some members.

I function best in groups when we all share our ideas and come to a conclusion about what is the best.

I hope our group can collaborate and produce a coherent document efficiently.
